Subject: Re: Capabilities issue
Posted by kevinm on Thu, 02 Sep 2010 14:13:29 GMT

Hi there Maratrus,

Thanks for the answer, I have tried this, and get

Quote:
vzctl restart 130
Restarting container
Stopping container ...
Container was stopped
Container is unmounted
Starting container ...
Container is mounted
Unable to set capability: Operation not permitted
Unable to set capability
Container start failed

I see this in the bugzilla :

http://bugzilla.openvz.org/show_bug.cgi?id=554

Is this possible to set ?

Best Regards
Kev
