---

new 2.6.32 based kernel available  
<http://wiki.openvz.org/Download/kernel/2.6.32/2.6.32-dyomin.1>

i'm currently compiling for my openvz-testbed, as the ovz-2.6.32.14-kernel that is running atm is susceptible to the exploit.

BTW: [http://bugzilla.openvz.org/show\\_bug.cgi?id=1542](http://bugzilla.openvz.org/show_bug.cgi?id=1542) is still NOT fixed.
