Subject: Move VPS to different directory.
Posted by pug123 on Thu, 04 Nov 2010 15:20:17 GMT

Hello,

I would like to move some disk intensive vpses to different directory which is mouted on different disk. Could you tell me how to do it?

Now all VE: are on

/vz mounted on /dev/sda1

I would like some of them (not all) put on second disk
/vz2 /dev/sdb1

Thank you.
