Hi,

on the hardware node: can you plz summary the space on private DirTree of this ct, maybe the ct quota file is broken.

# stop the ct:

```
% vzctl stop <_CTID_>
```

# check space on hardwarenode

```
% du -sh /vz/private/<_CTID_>
```

# check qouta file

```
% vzquota show <_CTID_>
```

# drop qouta entries from file

```
% vzquota drop <_CTID_>
```

# (re-)start ct / reinit quota

```
% vzctl start <_CTID_>
```

Bye,

Thorsten
