Hi,

on the hardware node: can you plz summary the space on private DirTree of this ct, maybe the ct quota file is broken.

stop the ct:

% vzctl stop <_CTID_>

check space on hardwarenode

% du -sh /vz/private/<_CTID_>

check qouta file

% vzquota show <_CTID_>

drop qouta entries from file

% vzquota drop <_CTID_>

(re-)start ct / reinit quota

% vzctl start <_CTID_>

Bye,

Thorsten
