
Subject: [PATCH 0/6] linux-cr: make pids a proper shared object (v2)

Posted by [Oren Laadan](#) on Mon, 07 Feb 2011 17:18:02 GMT

Hi,

This patch-set changes the way pids are saved/restored to treat them as proper shared objects (tracked in objhash) rather than simple pid numbers. The patch-set applies on top of branch 'ckpt-v23-rc1'. It also requires updates to user-cr (patchset posted separately).

Changelog[v2]:

- Wipe out many bugs - this version now passes all tests-cr tests.
- Rename 'depth' to 'vpids' as per Suka's suggestion

Oren.
