
Subject: Why I can't find the VCPU and FAIRSCHEd in the 2.6.32 branch

I download the src from the following link.

download.openvz.org/kernel/branches/2.6.32/2.6.32-dzhanibeko.v.1/

after applying the patch, I can't find the next configuration.

CONFIG_SCHED_VCPU=y

CONFIG_FAIRSCHEd=y

but in the manual(wiki.openvz.org/Kernel_configuration), the two configurations are must, so do I miss something or they are Obsoleted from the src.

thank you for any suggestion.
