---

This patchset is a cleanup and a preparation to unshare the pid namespace. These prerequisite prepare the next Eric's patchset to give a file descriptor to a namespace and join an existing namespace.

The initial authors of this patchset are Eric Biederman and Oleg Nesterov.

#### Changelog:

02/14/11 - daniel.lezcano@free.fr

- \* patch 2/3 : fix return ENOMEM and put\_pid\_ns on error
- \* removed buggy patch #4 from the initial patchset

01/31/11 - daniel.lezcano@free.fr:

- \* patch 1/4 : wrapped test in a function
- \* patch 2/4 : handle proc\_pid\_ns\_prepare\_proc error
- \* patch 2/4 : put parent pid\_ns on error
- \* other patches : refreshed against linux-next
