From: Jacob Pan <jacob.jun.pan@linux.intel.com>

Fixing subject in cover letter, should be v4 instead of v3

Changelog:

v4: - limit kthread creation only when valid duty ratio parameters are given.
- changed period back to milisecond
- consolidated parameter write functions

v3: - added documentation

v2:

- use read_u64/write_u64 instead of string read/write
- use period in second instead of ms
- renamed duty_ratio to duty_ratio_pct, be more specific
- removed locking around period and duty_ratio reads

Jacob Pan (1):

cgroup/freezer: add per freezer duty ratio control
