Hi,

please give some infos:

- * test the ping via IPv4, IPv6 or both ?
- * can you ping the ct from hostnode IPv4 / IPv6 ?
- * any ip(6)tables rules active ?

in this debian 6.0 container:

```
# ip -4 a l ; ip -4 r l ; ip -6 a ; ip -6 r l in ct
# /etc/init.d/networking restart ... ok, errors ?
# cat /etc/network/interfaces
```

Bye,

Thorsten
