Hello,
I compile OpenVZ (latest version) on (Slackware RHEL 6) and I have a problem with the error.

```
18:39:41: In file included from /DISK2/src/vlinux-2.6.32/arch/x86/include/asm/pgalloc.h:6, from
arch/x86/mm/pgtable.c:2: include/linux/pagemap.h: In function '__page_cache_alloc':
include/linux/pagemap.h:209: error: dereferencing pointer to incomplete type make[2]: ***
[arch/x86/mm/pgtable.o] Error 1 make[1]: *** [arch/x86/mm] Error 2 make: *** [arch/x86] Error 2
```

Please Help
