Subject: Re: Openvz kernel with PAE
Posted by classical on Wed, 20 Apr 2011 08:13:15 GMT

Hello Ales

My system is Debian lenny 5.0.8

Quote:You need to use openvz kernel with PAE support. That is not a separate package, it's the kernel itself.

I can't find openvz kernel with PAE support do i need some additional repos ? It's not in debian repositories.

Thanks
