jbond007 wrote on Thu, 23 March 2006 08:43Hi all openvz user I want to share my exp, using openvz

openvz is not compatible for use plesk 100% i always fund rpm error i try all Centos fedora and debian
but always stuck

If any one install please post comment about the installation

Hi, take a look at http://wiki.openvz.org/Plesk_in_VE
