hi there, it's my first post to this ml.

I'm using OpenVZ with 251's VE.

so I added function to vzctl to set range of veid.

ex.

```
vzctl restart all
```

```
vzctl stop 1000-2000
```

```
vzctl set 1000,2000 --nameserver 192.168.0.1 --save
```

```
vzctl destroy 1000,2000,3000-6000
```

How do I post this patch?
