IcyTexx wrote on Fri, 08 April 2011 11:51I have "solved" this error, but the next one appears:

```
insserv: can not symlink(../init.d/vzquota, ../rc0.d/S01vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc1.d/S01vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc2.d/S01vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc3.d/S01vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc4.d/S01vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc5.d/S01vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc6.d/S01vzquota): File exists
```

Can anyone help?

How to fix??????????????????

```
insserv: can not symlink(../init.d/vzquota, ../rc0.d/S17vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc1.d/S17vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc2.d/S17vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc3.d/S17vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc4.d/S17vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc5.d/S17vzquota): File exists
insserv: can not symlink(../init.d/vzquota, ../rc6.d/S17vzquota): File exists
```
