Subject: openvz hangs on hp blade running centos 5.6 Posted by gwalia on Thu, 21 Jul 2011 19:58:01 GMT View Forum Message <> Reply to Message

Has anyone ran openvz on hp BL460c blade server, we are having problems running it on centos 5.6, the blade hangs after running 10-15 minutes with 2 containers running only ping traffic
