kir wrote on Tue, 13 September 2005 05:14Cool! Please note we have just updated kernel and some utilities.

And please post your feedback.

Looks great to me too! I'll be trying the whole thing out on a x86_64 CentOS core 4.2. Anybody tried this already? How is the 64 bit going?

But anyway... great that sw-soft made this step.

Martijn
