Hi,

---8<...
(...)

```
[root@cloud2 ~]# service network restart
Shutting down interface eth0:                [ OK ]
Shutting down loopback interface:             [ OK ]
Disabling IPv4 packet forwarding: net.ipv4.ip_forward = 0
(...)
---8<...
```

- please check the sysctl ip_forwarding, is set to 1 after all ?
- any ct iptables rule set ?
- on your hostnode, any outgoing traffic to any host are ok ?

Bye,
Thorsten
