Zitat von "U.Mutlu" <for-gmane@mutluit.com>:

> "ps -el" (and also "ps aux" etc.) on the HN shows all processes,
> incl. those of VEs.
> Is there a way to show, on the HN, only the processes of the HN itself,
> excluding the processes of the VEs?

This is as far as i know by design. The HN is the Hypervisor and must have a global view what is going on the machine. That's why it is advised to not use any other services beside openvz on the HN.

Regards

Andreas
