I have a problem co create new container.... this message from system :

```
Internal error: Command 'vzctl set 1 --userpasswd root:dodo' execution failed with code 47
Output: Starting container ...
Container is mounted
Unable to start init, probably incorrect template
Container start failed
Stopping container ...
Container was stopped
Container is unmounted
```

can you help me??? please...

i am using :

Host OS : centos 6.0 / openvz web panel / os server using ubuntu 8.04.
