I have a problem co create new container.... this message from system :

Internal error: Command 'vzctl set 1 --userpasswd root:dodo' execution failed with code 47

Output: Starting container ...

Container is mounted

Unable to start init, probably incorrect template

Container start failed

Stopping container ...

Container was stopped

Container is unmounted

can you help me??? please...

i am using :

Host OS : centos 6.0 / openvz web panel / os server using ubuntu 8.04.
