Subject: Attempt to allocate stack guard pages failed Posted by wittedhaddock on Fri, 16 Dec 2011 00:12:45 GMT View Forum Message <> Reply to Message

Whenever I run a java app, I get the error: Attempt to allocate stack guard pages failed.I allocated 3gb of ram to the specific process, and it still gives me this error.I do not understand.Thank you for all of your help and support in advance.All the best,James
