loading kernel modules from VE doesn't seem to be available due to obvious security issues:

[forum.openvz.org/index.php?t=msg&goto=36148&](http://forum.openvz.org/index.php?t=msg&goto=36148&)

[forum.openvz.org/index.php?t=msg&goto=32921&](http://forum.openvz.org/index.php?t=msg&goto=32921&)

you can however load modules on the Hardware Node and then use devices from inside the VE.  
Try using `vzctl set --devnodes` or `--devices`.

(occasionally some ref here:

[forum.openvz.org/index.php?t=msg&goto=10657&](http://forum.openvz.org/index.php?t=msg&goto=10657&)

)
