Hello,
we have a file in our linux server and it does not have owner or permission see the output :

```
[root@user mydirectoryname]# ll  
total 0  
?----- ? ? ? ? ? yourdirectory
```

how can i remove that ?

i try `rm -Rf 1` but it did not removed,

and also i try stop container and try remove file via main node but no success,

Thanks,
