Subject: [PATCH RFC] SUNRPC: remove marking service temporary sockets with XPT\_CHNGBUF

Posted by [Stanislav Kinsbursky](#) on Fri, 20 Jan 2012 12:55:39 GMT

---

This is a cleanup patch.

Service temporary sockets can be TCP or RDMA only. But XPT\_CHNGBUF service socket flag is checked only for UDP sockets on receive.

Thus (if I don't miss something non-obvious) this bit raising for temporary sockets can be removed.

Signed-off-by: Stanislav Kinsbursky <[skinsbursky@parallels.com](mailto:skinsbursky@parallels.com)>
