Some fixes to work better :

```
#!/bin/bash

NO_HEADER=0
NO_COLOR=0
while getopts "hHC" OPTION; do
    case $OPTION in
        h)
            echo "usage $0 options"
            echo "OPTIONS:"
            echo " -h Show this help message"
            echo " -H Disable the header"
            echo " -C Disable colors"
            exit 1
            ;;
        H)
            NO_HEADER=1
            ;;
        C)
            NO_COLOR=1
            ;;
    esac
done

if [ $NO_HEADER -eq 0 ]; then
    printf "%-15s %-20s %-15s %-9s %s\r\n" "VEID" "Hostname"
    "Load: 1min" "5min" "15min"
fi
for VEID in `vzlist -H -o tid`; do
    source /etc/vz/conf/$VEID.conf
    #LOADTOTAL=$(cat /vz/root/$VEID/proc/loadavg | awk '{print
    $1,$2,$3}')
    LOADTOTAL=$(vzctl exec 312 cat /proc/loadavg | awk '{print
    $1,$2,$3}')
    LOAD_1MIN=$(echo $LOADTOTAL | awk '{print $1}')
    LOAD_5MIN=$(echo $LOADTOTAL | awk '{print $2}')
    LOAD_15MIN=$(echo $LOADTOTAL | awk '{print $3}')
    LOAD=${LOAD_1MIN/.}
    [ ${#HOSTNAME} -gt 20 ] && HOSTNAME="${HOSTNAME:0:17}..."
    if [ $NO_COLOR -eq 0 ]; then
        [ $LOAD -lt 3 ] && COLOR="\033[1;32m"
        [ $LOAD -ge 3 ] && COLOR="\033[1;33m"
        [ $LOAD -ge 7 ] && COLOR="\033[1;31m"
```

```
fi
printf "$COLOR %-15s %-20s %10s %9s %10s\$033[0m\r\n" $VEID
$HOSTNAME $LOAD_1MIN $LOAD_5MIN $LOAD_15MIN
done
```
