
Subject: [PATCH 0/2] NFS: blocklayout PipeFS containerization fixes
Posted by [Stanislav Kinsbursky](#) on Sun, 11 Mar 2012 14:20:13 GMT
[View Forum Message](#) <> [Reply to Message](#)

This patch set moves global wait queue and message to per-net data structure.

Stanislav Kinsbursky (2):

NFS: replace global bl_mount_reply with per-net one

NFS: replace global bl_wq with per-net one
