Hello, woke up to a kernel panic today.

Attached is the error message, we had done nothing unusual to the node.

Linux 2.6.18-308.el5.028stab099.3 #1 SMP Wed Mar 7 15:56:00 MSK 2012 x86_64 x86_64 x86_64 GNU/Linux

CentOS release 5.8 (Final)

Is anyone else having a similar issue?
