Are you shure?

In the exploit is written down, that every 2.6.x Kernel is involved. (i mean the proc vuln which was fixed with 2.6.16.25+26)

See for example:

<http://lists.grok.org.uk/pipermail/full-disclosure/attachments/20060714/c403c6c1/h00lyshit.bin>
or
