Subject: Re: checkpoint fails Posted by damswf on Tue, 22 May 2012 14:27:46 GMT View Forum Message <> Reply to Message

Help please, I cannot migrate my CTs due to this bug.

I tested the new kernel: 2.6.32-12-pve from Proxmox and it doesn't resolve this bug.

Disabling vsyscall mapping doesn't resolve it either.

Thanks in advance. Regards
