Subject: Re: Java(Sun) problem with kernel RHEL6 042stab055.10
Posted by yasuyuki on Mon, 04 Jun 2012 12:28:28 GMT

Tomcat6 and Tomcat7 cannot work on new stable kernel(055.10) and JDK 1.6.0_20-b02.

But JDK 1.6.0_07-b06 and OpenJDK are fine.
And when I downgrade to kernel(044.11), JDK 1.6.0_20-b02 is fine.
