I just came up with the following preliminary list of sessions:

<http://wiki.linuxplumbersconf.org/2012:containers>

Since people mostly said what they wanted to talk about, but without extensive descriptions, I took the liberty of coming up with a small text for each in the blueprints. If you believe this is inaccurate, or would like to see it extended (although I personally don't see the point about going into very formal and deep details here), just let me know and I will edit it.

This is all still subject to change.
