Hello

i have box with 16 G.B ram have the kernel

Linux vps.box.com 2.6.18-308.8.2.el5.028stab101.1PAE #1 SMP Sun Jun 24 21:40:20 MSD 2012
i686 i686 i386 GNU/Linux

it's not reading the whole memeory it's reading the 3 G.B only

what should i do to make it read the whole ram
