Distro:

- source: CentOS 5.8
- target: CentOS 6.3

OpenVZ kernel:

- source: 2.6.18-308.el5.028stab099.3
- target: 2.6.32-042stab059.7

Vzctl version:

- source: vzctl version 3.3
- target: vzctl version 3.3

Logs:

NOTHING. We've even tried to -vv the vz migrate and --rsync=vz but we got nothing except the message specified before.
