In fact I just implemented that as a --mount\_opts option to vzctl set.

See these git commits:

<http://git.openvz.org/?p=vzctl;a=commit;h=af95fbdf>

<http://git.openvz.org/?p=vzctl;a=commit;h=287d0d>

<http://git.openvz.org/?p=vzctl;a=commit;h=7eb61c>

Feel free to test and report your results.
