
Subject: [PATCH 03/12] fuse: rework fuse_retrieve()
Posted by [Maxim Patlasov](#) on Fri, 26 Oct 2012 15:48:42 GMT
[View Forum Message](#) <> [Reply to Message](#)

The patch reworks fuse_retrieve() to allocate only so many page pointers as needed. The core part of the patch is the following calculation:

```
num_pages = (num + offset + PAGE_SIZE - 1) >> PAGE_SHIFT;
```

(thanks Miklos for formula). All other changes are mostly shuffling lines.
