I don't see /lib64/libkeyutils.so.1.3.0 file in precreated templates. checked:

http://download.openvz.org/template/precreated/centos-6-x86_64-devel.tar.gz

http://download.openvz.org/template/precreated/centos-6-x86_64.tar.gz

please download, extract, and look.

maybe host in which you create CT is compromised?

can you give checksum of precreated template you downloaded?
