Subject: Re: Putty: Connection timed out - openvz ubuntu template Posted by Paparaciz on Thu, 12 Sep 2013 18:58:45 GMT View Forum Message <> Reply to Message

footylad wrote on Wed, 11 September 2013 01:13Did you ever solve this problem? I have the exact same issue. When I reboot the ifconfig returns with no devices. I have this issue on the same Ubuntu precreated templates and Debian...

turning some services to start in start time is not a openvz issue. footylad: what devices you expect in ifconfig?

for both: what os is in HN? what kernel, vztools versions?
