<http://lmgf.com/?q=vz%2Froot+vs+vz%2Fprivate>

First link or one of the first few should answer all that for you.

Same if you don't know what a bind mount is and need specifics:

<http://lmgf.com/?q=bind+mount>

Please take this as a constructive criticism. You're wasting your own time by posting questions and waiting hours or days for answers that members don't want to needlessly repeat, while you could have found an answer yourself in a matter of seconds.
