Subject: Re: CentOS 7 template final still in the Beta section?
Posted by Ales on Tue, 15 Jul 2014 12:42:59 GMT

Beta in this case refers to the template itself, not to the status of the OS.

So, this is final release of CentOS, but the template hasn't been tested enough yet. The template will move out of beta eventually, what you can do in the mean time is test it and report any issues to openvz bugzilla.
