We are receiving lots of errors on console about e1000e.
See attachment for console output.

OPENVZ kernel:

```
#uname -a  
Linux hwn01.mangelot.nl 2.6.32-042stab090.5 #1 SMP Sat Jun 21 00:15:09 MSK 2014 x86_64  
x86_64 x86_64 GNU/Linux
```

E1000E version:

```
#modinfo e1000e | grep version  
version:      2.3.2-k  
srcversion:    9565A5B6270D1BB6C45742B  
vermagic:      2.6.32-042stab090.5 SMP mod_unload modversions
```

latest version available: e1000e-3.1.0.2.tar.gz

Is it save to upgrade te kernel drivers like this bugfix on openvz.
