Hi, i've downloaded this rpm   https://catn.com/2009/03/17/process-list-for-openvz-containe rs-vztop/, that have vzps and vztop commands, but once i tried to use them i received and core dump message;

vzps
Segmentation fault (core dumped)

#vztop

Segmentation fault (core dumped)

i tried in few openvz's hn with same result , any clues ?

thanks!
