I am getting the following error, when I take a backup of the VM.

```
INFO: Error: No checkpointing support, unable to open /proc/cpt: No such file or directory
ERROR: Backup of VM 101 failed - command '/usr/sbin/vzctl chkpnt 101 --suspend' failed with
exit code 16
```

the detailed log is:

```
INFO: Starting new backup job - vzdump --compress --dumpdir /backup --tmpdir /data
--suspend 101
INFO: Starting Backup of VM 101 (openvz)
