When I try to restart the VPS I get this !

Opening delta /vz/private/1739/root.hdd/root.hdd

Adding delta dev=/dev/ploop35640 img=/vz/private/1739/root.hdd/root.hdd (rw)

Error in add_delta (ploop.c:1381): Can't add image /vz/private/1739/root.hdd/root.hdd: Invalid argument

Failed to mount image: Error in add_delta (ploop.c:1381): Can't add image /vz/private/1739/root.hdd/root.hdd: Invalid argument [3]

Can anyone suggest something?
