I am afraid that you are looking for OpenVZ7 are no longer exists. I am afraid the confusion between OpenVZ7 and proprietary Virtuozzo7 is intentional. I am afraid offering only the 7.0 version is also intentional. If you want newer than 7.0 than pay us for the proprietary version. Did you carefully read the EULA? Are you sure?

<http://repo.virtuozzo.com/vzlinux/7.2/EULA>

<http://repo.virtuozzo.com/vzlinux/7.3/EULA>

<http://repo.virtuozzo.com/vzlinux/7.4/EULA>

Especially this part:

"2.6. Audit Rights. During the term of this Agreement and for two (2) years after termination or expiration of this Agreement, Virtuozzo may audit, upon written notice to you, your books, records, and computing devices to determine your compliance with this Agreement and your payment of the applicable license fees, if any, for the Software. In the event that any such audit reveals an underpayment by you of more than five percent (5%) of the license fees due to Virtuozzo in the period being audited, or that you have breached any term of this Agreement, then, in addition to any other rights and remedies Virtuozzo may have, you will promptly pay to Virtuozzo any underpayments plus the cost of the audit."
