Subject: Re: GRE/IPIP tunnel support on VE Posted by MaksymDolgykh on Wed, 30 May 2018 10:12:04 GMT View Forum Message <> Reply to Message

Hello,

Actually, I have mentioned all commands in the previous message Just make sure the interface is in UP state on the HW

ip tunnel add tunel0 mode gre local 10.1.2.3 remote 10.2.3.4 ip link set up dev tunel0 vzctl set 100 --netdev_add tunel0 --save

I didn't try this now, but 11 years ago it worked, so I'm going to assume it still works.

Thank you.
