Subject: Re: Problem create ct
Posted by vaverin on Thu, 24 Jan 2019 04:56:21 GMT

Please try to execute vzpkg create cache ubuntu-16.04,
it generates detailed output and can help to explain the reason of the trouble.
Also it makes sense to update kernel (and other vz-related packages too) -- your current
vz7.50.16 is quite old.

Thank you,
  Vasily Averin
