Subject: Re: Update to 7.0.9 release and journalctl verify system freeze
Posted by khorenko on Mon, 13 May 2019 10:36:37 GMT

We did not face this problem and for investigation we need a memory dump when the node is frozen.
Please crash it with "echo c > /proc/sysrq-trigger" or with Alt+SysRQ+c and file a bug with the dump at http://bugs.openvz.org
