Hi,

OpenVZ 6 is end of support since Nov 2019. But in that page I can see a new update on Deb 2020: https://wiki.openvz.org/Download/kernel/rhel6/042stab142.1

What is the current status of OpenVZ 6?

Because I can read: Status stable, maintained End Of Life Nov 2019

a bit confusing no?
