Hi,

OpenVZ 6 is end of support since Nov 2019.

But in that page I can see a new update on Feb 2020:

<https://wiki.openvz.org/Download/kernel/rhel6/042stab142.1>

What is the current status of OpenVZ 6?

Because I can read:

Status stable, maintained

End Of Life Nov 2019

a bit confusing no?
